Sonu Singh

Technical Account Manager · Network Security · Observability

Kraków, Poland · sonusinghabd@gmail.com · www.linkedin.com/in/sonusingh111106/ · github.com/sonusingh10

Network security and technical account management professional with 10+ years across enterprise networking, firewall security, cloud platforms, observability, and technical consulting.

EXPERIENCE

Technical Account Manager · ThousandEyes
Aug 2022 — Present

Cisco Systems · Kraków, Poland

- Drive ThousandEyes adoption, customer technical success, and observability maturity across enterprise accounts.
- Design and optimize observability architectures integrating ThousandEyes with Splunk, SolarWinds, and Grafana.
- Lead onboarding, enablement, workshops, health checks, architecture reviews, and Enterprise Agent deployments across cloud, hybrid, and on-premises environments.
- Investigate network, application, and infrastructure performance with ThousandEyes, logs, TCPDump, Wireshark, and partner teams across Product, Engineering, SRE, and DevOps.

Technical Support Engineer
Feb 2020 — Jun 2022

StarLink · Dubai, UAE

- Resolved approximately 70% of Palo Alto Firewall and Panorama support incidents within 24 hours.
- Provided L2/L3 support for firewall policies, NAT, GlobalProtect, IPSec and SSL VPN, URL Filtering, Content-ID, security profiles, and threat prevention.
- Implemented and maintained firewall policies and vulnerability-mitigation recommendations.
- Investigated customer issues through log review, packet capture, configuration analysis, and escalation management.

Technical Solution Engineer
Jul 2018 — Jan 2020

Barracuda Networks India Pvt. Ltd. · India

- Deployed Barracuda NextGen and CloudGen Firewall solutions for enterprise customers.
- Designed and deployed cloud firewall solutions across AWS, Azure, and GCP.
- Provided technical consulting from deployment through operations, including configuration, troubleshooting, and best-practice guidance.
- Used packet capture and log analysis to diagnose routing, security policy, VPN, and performance issues.

Support Engineer
Jan 2016 — Oct 2018

Helloclass · Bengaluru, India

- Managed and configured enterprise network and security infrastructure across multi-site environments.
- Supported Juniper SRX, Palo Alto, Cisco ASA, Cisco Meraki, and Cisco network devices.
- Worked with customers and internal IT teams to troubleshoot critical network issues and maintain service availability.
- Used Wireshark and TCPDump to diagnose connectivity, latency, and performance problems.

SELECTED PROJECT

7LayerX — Engineering knowledge platform
https://www.7layerx.com/

Creator and builder. The live platform brings those resources together. Its networking library includes BGP articles, a learning module, an eBGP lab, and practical network tools.

SKILLS

Observability: Cisco ThousandEyes · Splunk · SolarWinds · Grafana · Monitoring strategy · Telemetry & dashboards · Performance analysis

Networking: TCP/IP · DNS & DHCP · HTTP/S · Routing & switching · IPSec VPN · IKEv1/IKEv2 · Wireshark · TCPDump · Packet capture

Security: Palo Alto Firewall & Panorama · Barracuda CloudGen · Juniper SRX · Cisco ASA & Meraki · Forescout NAC · IDS/IPS · SSL/TLS · 802.1X · GlobalProtect · URL Filtering & Content-ID

Cloud & systems: AWS · Azure · GCP · Linux / Red Hat · Windows · Docker · Python · Blue Prism process automation · SaaS security · pfSense

CERTIFICATIONS

Cisco Certified DevNet Associate · Palo Alto Networks PCNSE ×2 · Barracuda NextGen Firewall Certification · Juniper JNCIA — Security · Red Hat Certified System Administrator (RHCSA) · Forescout FSCA

EDUCATION

Bachelor of Technology — Electronics and Communication Engineering

Jaypee University of Engineering and Technology · 2011 — 2015
